1.0 AIMS

Futures Matter - Northwood aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Identify and support pupils who are potentially at greater risk of harm online than others, recognising the additional vulnerabilities our pupils with SEMH, autism and communication needs may face online
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- Content, being exposed to illegal, inappropriate or harmful content, such as pornography, racism, misogyny, self-harm, suicide, antisemitism, radicalisation, extremism, extreme sexual or physical violence, misinformation, disinformation (including fake news), and conspiracy theories
- Contact, being subjected to harmful online interaction with other users or generative AI applications that simulate this, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit the user for sexual, criminal, financial or other purposes
- Conduct, online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (including consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, including those generated using AI), and online bullying
- Commerce, risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2.0 LEGISLATION AND GUIDANCE

This policy is based on the statutory safeguarding guidance, Keeping Children Safe in Education (KCSIE) 2026, from the Department for Education (DfE), and its advice for schools on:

- Teaching online safety
- Meeting digital and technology standards
- Preventing and tackling bullying
- Searching, screening and confiscation
- Mobile phones in schools

It also refers to the DfE's guidance on protecting children from radicalisation.

It reflects existing legislation, including but not limited to the Education Act 1996 (as amended), the Education and Inspections Act 2006, the Children's Wellbeing and Schools Act 2026 and the Equality Act 2010. It also reflects the Education Act 2011, which gives teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

3.0 ROLES AND RESPONSIBILITIES

3.1 The Governance Board

The Governance Board has overall responsibility for monitoring this policy and holding the Head Teacher to account for its implementation. The Governance Board will ensure online safety is a running and interrelated theme in the whole-school approach to safeguarding and related policies and procedures, including when planning the curriculum, staff training, the role of the DSL and any parental engagement.

The Governance Board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The Governance Board will also make sure all staff receive regular online safety updates, as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The Governance Board will co-ordinate regular meetings with appropriate staff to discuss online safety and requirements for training, and monitor online safety logs as provided by the Designated Safeguarding Lead (DSL).

The Governance Board will make sure that the school teaches pupils how to keep themselves and others safe, including online.

The Governance Board will make sure that the school has appropriate filtering and monitoring systems in place on school devices and school networks, and that a review of the effectiveness of the filtering and monitoring systems is carried out at least once every academic year. The Governance Board will review the DfE's filtering and monitoring standards and discuss with the Head Teacher and Kirsty Chamberlain (Finance and Business Support Manager) what needs to be done to support the school in meeting the standards, which include:

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems
- Reviewing filtering and monitoring provisions at least annually
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning
- Having effective monitoring strategies in place that meet the school's safeguarding needs

All governors will:

- Make sure they have read and understood this policy
- Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet (Appendix 2)
- Make sure that online safety is a running and interrelated theme when devising and implementing the whole-school approach to safeguarding and related policies and procedures
- Make sure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and pupils with special educational needs and/or disabilities (SEND), recognising that a 'one size fits all' approach is not appropriate for our pupils and that a more personalised or contextualised approach is often more suitable

3.2 The Head Teacher

The Head Teacher is responsible for making sure that staff understand this policy, and that it is being implemented consistently throughout the school.

The Head Teacher will make sure that there are robust cover arrangements for when the DSL is unavailable due to illness, leave or other circumstances, for example a confidential shared mailbox, so that safeguarding concerns are received, monitored and acted on without delay.

3.3 The Designated Safeguarding Lead (DSL)

The school's Designated Safeguarding Lead (DSL) is Benjamin Neasom, Head Teacher. The Deputy DSLs are Carrie-Ann McGurk and Simone Welch. Further detail is set out in our Safeguarding and Child Protection Policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

- Supporting the Head Teacher in making sure that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the Head Teacher and Governance Board to review this policy annually and make sure the procedures and implementation are updated and reviewed regularly
- Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks
- Providing governors with assurance that filtering and monitoring systems are working effectively and reviewed regularly
- Working with the Head Teacher and Kirsty Chamberlain (Finance and Business Support Manager) to make sure the appropriate systems and processes are in place
- Working with the Head Teacher, Kirsty Chamberlain and other staff, as necessary, to address any online safety issues or incidents
- Managing all online safety issues and incidents in line with the school's Safeguarding and Child Protection Policy
- Responding to safeguarding concerns identified by filtering and monitoring
- Making sure that any online safety incidents are logged (see Appendix 4) and dealt with appropriately in line with this policy
- Making sure that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school's Behaviour, Rewards and Sanctions Policy
- Updating and delivering staff training on online safety (Appendix 3 contains a self-audit for staff on online safety training needs)
- Liaising with other agencies and/or external services if necessary
- Providing regular reports on online safety in school to the Head Teacher and/or Governance Board
- Undertaking annual risk assessments that consider and reflect the risks pupils face
- Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually

This list is not intended to be exhaustive.

3.4 ICT oversight and filtering and monitoring

The Head Teacher oversees the school's ICT provision, together with Kirsty Chamberlain, Finance and Business Support Manager. Futures Matter - Northwood uses Senso as its filtering and monitoring provider. Senso is accredited under the UK Safer Internet Centre filtering accreditation scheme, integrates with CPOMS, and has image blur and assisted monitoring enabled. Trained safeguarding staff at Senso review flagged captures, and the DSL acts on every alert (see our Filtering and Monitoring Policy). The Head Teacher and Kirsty Chamberlain are responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and make sure pupils

are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
- Making sure that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
- Conducting a full security check and monitoring the school's ICT systems on a weekly basis
- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files
- Making sure that any online safety incidents are logged (see Appendix 4) and dealt with appropriately in line with this policy
- Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school's Behaviour, Rewards and Sanctions Policy

This list is not intended to be exhaustive.

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet (Appendix 2), and making sure that pupils follow the school's terms on acceptable use (Appendix 1)
- Knowing that the DSL is responsible for the filtering and monitoring systems and processes, and reporting any incidents of those systems or processes failing to the DSL or Head Teacher immediately
- Following the correct procedures by seeking authorisation from the Head Teacher or DSL if they need to bypass the filtering and monitoring systems for educational purposes
- Working with the DSL to make sure that any online safety incidents are logged (see Appendix 4) and dealt with appropriately in line with this policy
- Making sure that any incidents of cyber-bullying are dealt with appropriately in line with the school's Behaviour, Rewards and Sanctions Policy
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

3.6 Parents/carers

Parents/carers are expected to:

- Notify a member of staff or the Head Teacher of any concerns or queries regarding this policy
- Make sure that their child has read, understood and agreed to the terms on acceptable use of the school's ICT systems and internet (Appendix 1)

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues? - UK Safer Internet Centre
- Help and advice for parents/carers - Childnet
- Parents and carers resource sheet - Childnet
- Kids Online World, online safety advice for pupils, parents and carers

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the Head Teacher and/or the DSL.

Concerns or queries about this policy can be raised with any member of staff or the Head Teacher.

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy and expected to read and follow it. Where appropriate, they will be expected to agree to the terms on acceptable use (Appendix 2).

4.0 EDUCATING PUPILS ABOUT ONLINE SAFETY

4.1 Pupils will be taught about online safety as part of the curriculum

The content below is taken from the National Curriculum computing programmes of study and the government's guidance on relationships and sex education (RSE) and health education, adapted to reflect our pupils' ages (11 to 16) and additional needs.

All pupils are taught relationships and sex education and health education, adapted to be accessible for pupils with SEMH, autism and communication needs.

Pupils in Key Stage (KS) 3 will be taught to:

- Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy
- Recognise inappropriate content, contact and conduct, and know how to report concerns

Pupils in KS4 will be taught:

- To understand how changes in technology affect safety, including new ways to protect their online privacy and identity
- How to report a range of concerns

By the end of secondary school, pupils will know:

- Rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online
- Online risks, including the importance of being cautious about sharing personal information online and of using privacy and location settings appropriately to protect information online, and the difference between public and private online spaces and related safety issues
- The characteristics of social media, including that some social media accounts are fake, and/or may post things which are not real or have been created with AI, and that some users present highly exaggerated or idealised profiles of themselves online
- Not to provide material to others that they would not want to be distributed further, and not to pass on personal material which is sent to them, understanding that any material provided online might be circulated and that once this has happened there is no way of controlling where it ends up
- That keeping or forwarding indecent or sexual images of someone under 18 is a crime, even if the photo is of themselves or of someone who has consented, and even if the image was created by the child and/or using AI-generated imagery, including the potentially serious consequences and how to seek support without getting in trouble for asking for help
- What to do and how to report when they are concerned about material that has been circulated, including personal information, images or videos
- About the prevalence of deepfakes, including videos and photos, how they can be used maliciously as well as for entertainment, and how to identify them
- That the internet contains inappropriate and upsetting content, some of which is illegal, including unacceptable content that encourages misogyny, violence or use of weapons, and where to go for advice and support

- That social media can lead to escalations in conflicts, how to avoid these escalations and where to go for help and advice
- How to identify when technology and social media is used as part of bullying, harassment, stalking, coercive and controlling behaviour, and other forms of abusive and/or illegal behaviour, and how to seek support
- That pornography and other online content often presents a distorted picture of people and their sexual behaviours, which can negatively affect how people behave towards sexual partners, whether seen accidentally or deliberately
- How information and data is generated, collected, shared and used online, and that websites may share personal data about their users for commercial purposes
- That criminals can operate online scams, including risks of sextortion, how to identify online scams relating to sex, and how to seek support if they have been scammed or involved in sextortion
- That AI chatbots can pose risks by creating fake intimacy or offering harmful advice, and the importance of thinking critically about new technology as it appears online

The safe use of social media and the internet is also covered in other subjects where relevant. Given the nature of our pupil cohort, teaching about online safety is adapted to each pupil's individual needs, communication style and level of understanding, and is reinforced regularly rather than delivered as a one-off lesson.

4.2 Pupils will be taught practical cyber security skills

The following items come from the DfE's non-statutory cyber security standards for schools and colleges. All pupils will receive age-appropriate training on safe internet use, including:

- Methods that hackers use to trick people into disclosing personal information
- Password security
- Social engineering
- The physical security of devices
- The risks of removable storage devices, such as USBs
- Multi-factor authentication
- How to report a cyber incident or attack
- How to report a personal data breach

Pupils will also receive age-appropriate education on safeguarding issues such as cyber-bullying and the risks of online radicalisation.

5.0 EDUCATING PARENTS/CARERS ABOUT ONLINE SAFETY

The school will raise parents/carers' awareness of internet safety through letters or other communications home and via our school communications. This policy will also be shared with parents/carers.

Online safety will also be covered during parent/carer meetings and reviews. Parents and carers can also find advice on Kids Online World.

The school will let parents/carers know:

- What systems the school uses to filter and monitor online use
- What their children are being asked to do online, including the sites they will be asked to access and who from the school, if anyone, their child will be interacting with online
- The school's expectations in respect of appropriate use of AI by pupils

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the Head Teacher and/or the DSL. Concerns or queries about this policy can be raised with any member of staff or the Head Teacher.

6.0 CYBER-BULLYING

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power. See also our Behaviour, Rewards and Sanctions Policy.

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and encourage them to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, in a way that is accessible and appropriate to their individual needs, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Teaching staff will discuss cyber-bullying with their class groups.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying, including personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see Section 11.0 for more detail).

The school also sends information to parents/carers on cyber-bullying so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the Behaviour, Rewards and Sanctions Policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. The DSL will also work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

The Head Teacher, and any member of staff authorised to do so by the Head Teacher, can carry out a search and confiscate any electronic device in line with the school's Behaviour, Rewards and Sanctions Policy.

Authorised staff members may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

- Cause harm
- Undermine the safe environment of the school or disrupt teaching
- Commit an offence

If inappropriate material is found on the device, it is for the staff member, in conjunction with the DSL and/or Head Teacher, to decide on a suitable response. If there are images, data or

files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding whether there is a good reason to erase data or files from a device, staff members will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- They reasonably suspect that its continued existence is likely to cause harm to any person
- The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member suspects a device may contain an indecent image of a child, also known as a nude or semi-nude image, including any image generated or altered by AI, they will not:

- View, copy, print, share, store, save, forward on, or ask a child to share or download, the image
- Delete the image or ask the pupil to delete the image
- Ask the pupil(s) who are involved in the incident to disclose information regarding the imagery, as this is the responsibility of the DSL
- Share information about the incident with other members of staff, the pupil(s) it involves or their, or other, parents and/or carers
- Say or do anything to blame or shame any pupil involved

The staff member will confiscate the device and report the incident to the DSL immediately, who will decide what to do next. The DSL will make the decision in line with the DfE's latest guidance on searching, screening and confiscation, and UK Council for Internet Safety (UKCIS) guidance on sharing nudes and semi-nudes.

If the staff member has already viewed the imagery by accident, for example if the pupil showed it to them before they could ask them not to, they will report the incident to the DSL and seek support.

Any searching of pupils will be carried out in line with the DfE's latest guidance on searching, screening and confiscation, UKCIS guidance on sharing nudes and semi-nudes, and our Behaviour, Rewards and Sanctions Policy.

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school's Complaints Policy.

6.4 Artificial intelligence (AI)

Generative AI tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Gemini.

Futures Matter - Northwood recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others, for example in the form of 'deepfakes' or 'deep nudes', where AI is used to create images, audio or video hoaxes that look real. This includes deepfake pornography, being pornographic content created using AI to include someone's likeness.

Futures Matter - Northwood will treat any use of AI to bully pupils very seriously, in line with our Behaviour, Rewards and Sanctions Policy.

Staff should be aware of the risks of using AI tools while they are still being developed and should carry out a risk assessment where new AI tools are being used by the school, and where existing AI tools are used in cases which may pose a risk to individuals affected by them, including, but not limited to, pupils and staff.

Any use of artificial intelligence by staff should be carried out in accordance with Section 11.0 of our Staff Code of Conduct.

7.0 ACCEPTABLE USE OF THE INTERNET IN SCHOOL

All pupils, parents/carers, staff, volunteers and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet (Appendices 1 and 2). Visitors will be expected to read and agree to the school's terms on acceptable use, if relevant.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors, where relevant, to ensure they comply with the above, and restrict access through filtering systems where appropriate.

More information is set out in the acceptable use agreements in Appendices 1 and 2.

8.0 PUPILS USING MOBILE DEVICES IN SCHOOL

In line with statutory guidance, our school is a mobile phone-free environment by default. Pupils are not permitted to have access to or use their mobile phones or smart technology with similar functionality to mobile phones, such as smart watches, which we refer to collectively as 'mobile phones', throughout the school day. This prohibition includes all lessons, the time between lessons, breaktimes and lunchtimes.

Any deviation from this mobile phone-free baseline will be by exception only, for example approved arrangements for specific medical tracking or documented safeguarding needs, and must be explicitly authorised by the Head Teacher.

Where there is an arrangement by exception, any use of mobile devices in school by pupils must be in line with the acceptable use agreement (see Appendix 1). Any breach of the acceptable use agreement by a pupil may trigger a sanction in line with the Behaviour, Rewards and Sanctions Policy, which may result in the confiscation of their device.

9.0 STAFF USING WORK DEVICES OUTSIDE SCHOOL

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected, using strong passwords made up of three random words in combination with numbers and special characters, or generated by a password manager
- Ensuring their hard drive is encrypted, so that if the device is lost or stolen no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Installing anti-virus and anti-spyware software
- Keeping operating systems up to date by promptly installing the latest updates

Staff members must not use the device in any way that would violate the school's terms of acceptable use, as set out in Appendix 2. Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the Head Teacher or Kirsty Chamberlain, Finance and Business Support Manager.

10.0 HOW THE SCHOOL WILL RESPOND TO ISSUES OF MISUSE

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our Behaviour, Rewards and Sanctions Policy. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the school's staff disciplinary procedures and Staff Code of Conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11.0 TRAINING FOR STAFF, GOVERNORS AND VOLUNTEERS

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required.

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through abusive, threatening, harassing and misogynistic messages
- Non-consensual sharing of indecent nude and semi-nude images and/or videos, including images generated or altered by AI, can happen especially around chat groups
- Sharing of abusive images and pornography, including images generated or altered by AI, to those who do not want to receive such content, is a form of online abuse
- Physical abuse, sexual violence and initiation or hazing-type violence can all contain an online element

Training will also help staff:

- Develop better awareness to assist in spotting the signs and symptoms of online abuse
- Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and both Deputy DSLs will undertake child protection and safeguarding training, which will include online safety, at least every two years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training. Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our Safeguarding and Child Protection Policy.

12.0 MONITORING ARRANGEMENTS

The DSL logs behaviour and safeguarding issues related to online safety. An incident report log can be found in Appendix 4.

This policy will be reviewed annually by the DSL. At every review, the policy will be shared with the Governance Board. The review will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

13.0 LINKS WITH OTHER POLICIES

This Online Safety and Acceptable Use Policy is linked to our:

- Safeguarding and Child Protection Policy
- Behaviour, Rewards and Sanctions Policy
- Staff Code of Conduct, including its provisions on the acceptable use of technology and artificial intelligence
- Staff disciplinary procedures
- Data protection policy and privacy notices
- Complaints Policy

Appendix 1 ACCEPTABLE USE AGREEMENT (PUPILS AND PARENTS/CARERS)

I will read and follow the rules in the acceptable use agreement policy. When I use the school's ICT systems, like computers, and get onto the internet in school I will:

- Always use the school's ICT systems and the internet responsibly and for educational purposes only
- Only use them when a teacher is present, or with a teacher's permission
- Keep my usernames and passwords safe and not share these with others
- Keep my private information safe at all times and not give my name, address or telephone number to anyone without the permission of my teacher or parent/carer
- Tell a teacher, or another trusted adult, immediately if I find any material that might upset, distress or harm me or others
- Only use generative AI in accordance with the school's rules
- Always log off or shut down a computer when I have finished working on it

I will not:

- Access any inappropriate websites, including social networking sites, chat rooms and gaming sites, unless my teacher has expressly allowed this as part of a learning activity
- Open any attachments in emails, or follow any links in emails, without first checking with a teacher
- Use any inappropriate language when communicating online, including in emails
- Create, link to or post any material that is pornographic, offensive, obscene or otherwise inappropriate, including anything created using AI
- Log in to the school's network using someone else's details
- Arrange to meet anyone offline without first consulting my parent/carer, or without adult supervision

If I bring a personal mobile phone or other personal electronic device into school:

- I will make sure it is switched off and stored away securely as required by school rules immediately upon entering the school
- I understand that I am not permitted to look at, use, or have access to my device at any point during the school day, including during lessons, the time between lessons, breaktimes and lunchtimes
- I will only use my device if I have official written permission from the school
- I agree that if I break the school rules on mobile devices, my device will be confiscated

I agree that the school will monitor the websites I visit and that there will be consequences if I do not follow the rules.

Name of pupil:	Signed (pupil):
Date:	

Parent/carer's agreement: I agree that my child can use the school's ICT systems and internet when appropriately supervised by a member of school staff. I agree to the conditions set out above for pupils using the school's ICT systems and internet, and regarding a default ban on mobile devices in school, and will make sure my child understands these.

Signed (parent/carer):	Date:

Appendix 2 ACCEPTABLE USE AGREEMENT (STAFF, GOVERNORS, VOLUNTEERS AND VISITORS)

When using the school's ICT systems and accessing the internet in school, or outside school on a work device where applicable, I will not:

- Access, or attempt to access, inappropriate material, including but not limited to material of a violent, criminal or pornographic nature, or create, share, link to or send such material
- Use them in any way that could harm the school's reputation
- Access social networking sites or chat rooms other than for authorised educational purposes
- Use any improper language when communicating online, including in emails or other messaging services
- Install any unauthorised software, or connect unauthorised hardware or devices to the school's network
- Input, upload or process any personal data of pupils, confidential safeguarding information, or sensitive school data into public or unvetted generative AI tools, such as public AI chatbots or image generators, and will make sure I am aware of approved AI tools for use in school and follow this at all times
- Share my password with others or log in to the school's network using someone else's details
- Take photographs of pupils without checking with the Head Teacher or DSL first
- Share confidential information about the school, its pupils or staff, or other members of the community
- Access, modify or share data I am not authorised to access, modify or share
- Promote private businesses, unless that business is directly related to the school

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the Designated Safeguarding Lead (DSL) and Kirsty Chamberlain (Finance and Business Support Manager) know if a pupil informs me they have found any material that might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly, and ensure that pupils in my care do so too.

I will use generative AI in line with Section 11.0 of the school's Staff Code of Conduct.

Name of staff member/governor/volunteer/visitor:	Signed:
Date:	

Appendix 3 ONLINE SAFETY TRAINING NEEDS: SELF-AUDIT FOR STAFF

Name of staff member/volunteer:	Date:

Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Are you familiar with the filtering and monitoring systems on the school's devices and networks?	
Do you understand your role and responsibilities in relation to filtering and monitoring?
