FUTURES MATTER
NORTHWOOD

NOW OPEN

SCHOOL PROSPECTUS

A fresh start for secondary age pupils

An independent specialist day school for young people aged 11-16 with SEMH and ASC, now open in Highgate, Birmingham.

AT A GLANCE

- Ages 11–16, mixed cohort
- SEMH and ASC needs
- High challenge, high aspiration
- 38 weeks / 190 days a year
- Personalised academic & vocational pathways

A FRESH START

Choosing the right school for any child is a life changing decision, and we know how much rides on getting it right.

We know that parents and carers want a high standard of education for their child, delivered in an environment where they are happy, safe and well supported.

Futures Matter Education Ltd was set up by a group of highly experienced, like-minded professionals, well known for supporting children and young people with a range of needs. Our company name reflects what we firmly believe: that everyone's future matters.

We know that sourcing suitable education can be a huge challenge for parents, carers and local authorities. Sometimes the right provision is full, or does not yet exist. Our solution was to set up a new service to provide appropriate provision, so individuals can access relevant learning while being supported to attend or return to school.

Futures Matter – Northwood provides full-time, personalised programmes of learning which meet the individual needs, challenges and interests of learners. Our aim is to ensure great educational outcomes for all students, including gaining the skills, qualifications, determination and resilience to succeed in life beyond school.

Our staff team is highly experienced, suitably qualified and trained. We support our staff team's wellbeing, so they work effectively and remain passionate about making a difference.

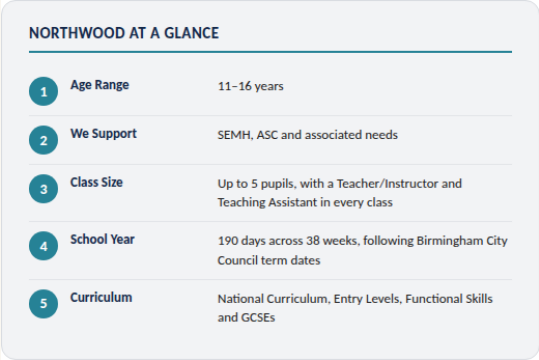

Your decision to choose our school will be supported by us throughout your child's time at Futures Matter – Northwood. We will work closely with you, as parents, carers and local authorities, to help confirm your decision was the right one.

Carrie-Ann McGurk
Proprietor

ABOUT OUR SCHOOL

Futures Matter – Northwood is a DfE registered, independent, specialist day school in Highgate, Birmingham, West Midlands. Our school provides high quality education for boys and girls aged 11 to 16 years. Students have a range of needs, including moderate learning difficulties, speech, language and communication difficulties, autism, and social, emotional and mental health needs.

Unique Reference Number (URN)	152552
Registered as	Independent special school for pupils aged 11 to 16 with SEND (cognitive and learning needs, SLCN, ASD and SEMH)

We aim to:

- Deliver a broad, balanced and ambitious curriculum, differentiated to individual needs and interests
- Provide the experiences and skills pupils need for their next stage of life: further education, employment, and active roles in society
- Support pupils' needs so they can access, enjoy and succeed in school
- Ensure staff are well supported to deliver excellent education, through ongoing professional development

Our Values

At Futures Matter – Northwood, everything we do is guided by four values:

AMBITIOUS
Highest aspirations for every young person, whatever their starting point

RESPECTFUL
Dignity for pupils, families and each other, always

RESILIENT
Confidence and self-belief to keep going when things are hard

KIND
Looking after one another and our community

Pupil Voice

We believe pupils should have a genuine say in their own education. Pupils' views are sought and valued as part of curriculum planning, annual reviews and transition reviews, and we regularly check in with pupils about how school is working for them. Listening to what pupils tell us, about their interests, their worries and what helps them learn, shapes how we support each individual and how Futures Matter – Northwood continues to develop as a school.

Our Facilities

Futures Matter – Northwood is based in a converted engineering building in Highgate, Birmingham, giving pupils a calm, non-institutional setting to learn in. Our facilities include:

- Dedicated teaching rooms for small-group learning
- A nurture and sensory regulation space
- A calm space to support emotional regulation
- A teaching kitchen, used for food preparation and life skills
- A social dining and breakout space
- Outdoor space for breaks and outdoor learning

Around Our School

A warm welcome for every pupil

Celebrating the benefits of reading

Safeguarding is at the heart of all we do

THE STORY OF OUR BUILDING

Every building has a story, and ours is still being written. We wanted to share where it began.

For generations, 122 Emily Street has been part of our family, originally home to Northwood Engineering Company (B'ham) Limited, a family-run British engineering business established in Birmingham in 1985. For nearly 40 years, this building was a place of industry, skill and endeavour: precision milling, drilling and turning, built on craftsmanship, accuracy and hard work. Those values have never left the building.

Northwood Engineering at work at 122 Emily Street, and its machinery moving on to a new chapter.

As the engineering chapter came to a close, our family was determined that 122 Emily Street should not simply be sold and its history forgotten. We wanted the building that had supported our family, employed local people and contributed to British industry for so many years to begin a new chapter, one which would continue to serve its community. Today, that chapter is Futures Matter – Northwood.

Where the building once helped manufacture precision components, it is now a place for shaping something even more important: young people's futures. The machinery and workshops have given way to classrooms and learning spaces, but the underlying principles remain remarkably similar: patience, precision, perseverance, practical skills, pride in achievement, and the understanding that every individual has potential when given the right tools and support.

There is something particularly meaningful to us about keeping this building within the family and giving it a renewed purpose. Northwood has roots. It has history. It has been part of our family's story and Birmingham's working community for almost 40 years, and we are immensely proud that its next generation will be defined by education, opportunity and inclusion, particularly for young people who may not always have found their place within traditional education.

The purpose may have changed, but the ambition has not: to create, to develop, to take pride in what we do, and to build something that lasts. At Futures Matter – Northwood, we are proud of where we have come from, and even more excited about what will be built here next.

Rick Asthana
Co-Founder

WELCOME FROM OUR HEADTEACHER

Welcome to Futures Matter – Northwood. It is a genuine privilege to introduce myself as the founding Headteacher of this exciting new provision, opening in the heart of Birmingham for secondary age young people whose primary need is SEMH and ASC.

I bring 20 years of experience in SEMH and specialist education, including headship of a specialist therapeutic school supporting young people with complex needs, and leadership of trauma informed, relational practice across integrated education, care and clinical teams. I know how much difference the right environment can make for young people who have not always had education work for them. At Northwood, we are building something different: a school where every young person is met exactly where they are, regardless of prior attainment, and where we hold high challenge and high aspiration alongside a genuinely low threat, low barrier environment. These are not opposites, and in my experience, together they are what allows young people to truly engage.

Our staff team is trained in trauma informed, relational practice. That means we put a pupil's emotional needs first, not as an alternative to learning, but as the route back into it. When a young person feels safe, understood and valued, they are ready to re-engage with their education, often for the first time in years.

An ambitious and inspiring curriculum sits at the heart of everything we do. As a close knit staff team, we set no ceiling on what our young people can achieve. We believe that with the right support, our pupils can go on to lead successful, fulfilling lives, and we will not settle for less on their behalf.

We welcome visits to our provision, so that you can experience Northwood first hand. I look forward to meeting you and your child soon.

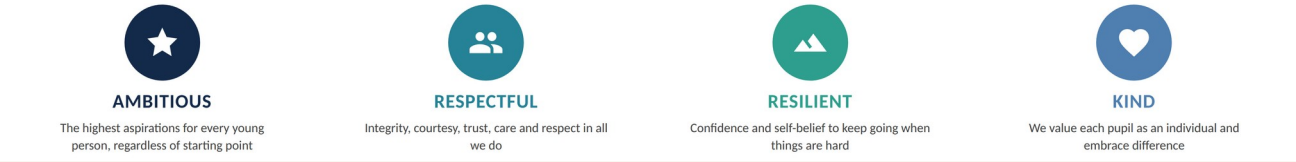

Benjamin Neasom
Founding Headteacher

OUR VISION, ETHOS & VALUES

Futures Matter – Northwood is committed to developing pupils as individuals, enabling them to achieve their full potential in an environment that is both enjoyable and safe.

Our aim is for learners to fully invest in the learning experience, because they see what's in it for them, and to embrace opportunities that help them succeed in life beyond school. At all Key Stages, our curriculum is structured to help learners secure success academically, personally, developmentally and in life beyond school.

Our leaders are determined to provide a positive and welcoming atmosphere and culture. Our staff team are proud and committed to supporting pupils to secure successful futures. Our core principles also mean that we:

- Meet pupils' needs and build on their strengths
- Harness creativity, skills and interests
- Identify support to manage and overcome barriers and difficulties
- Develop self-confidence, esteem and resilience
- Support pupils to become valued members of our local community

All school policies will be made available on our webpage and/or on request from the school office.

OUR STAFF, SAFEGUARDING & WELLBEING

Staff Team and Recruitment

We follow rigorous safer recruitment processes to ensure high quality staff are recruited and that pupils are kept safe. Senior leaders involved in recruitment are trained in Safer Recruitment. All staff undergo comprehensive checks, including references and an Enhanced DBS check.

Role	Status
Head Teacher	Benjamin Neasom (in post), DSL
Administrator	Mrs Ripa Begum (in post)
Finance and Business Support Manager	Kirsty Chamberlain (in post)
Teacher/Instructor (Trainee Teacher)	Simone Welch (in post), DDSL
Specialist English Teacher	Anika Ullah (in post)
Specialist Maths & Science Teacher	Currently onboarding
Teaching Assistant and Apprenticeship Trainee Thrive Practitioner	Kiana Gibson-Sawyers (in post)
Teaching Assistant	Onais Shinwari (in post)
PE Instructor & Enrichment Lead	Currently recruiting
Maintenance	External contractor

Class Sizes and Staffing

We keep classes small so that every pupil is known well and supported closely. Classes are capped at 5 pupils, with a Teacher/Instructor and a Teaching Assistant in every class. This allows staff to adapt pace, pitch and approach to each pupil's needs moment by moment, rather than pupils having to fit a one-size-fits-all lesson.

Meet Some of Our Team

We're delighted to welcome new members to our growing team at Futures Matter – Northwood.

Kiana Gibson-Sawyers
Teaching Assistant

"My skill set spans many sectors including education, prison, probation, housing, and residential care. These roles strengthened my ability to understand individual needs, build trust, and create environments where people feel seen and have a safe environment to grow. I chose to work at FME because I'm passionate about having a positive impact on young people: helping them build confidence, develop independence, and realise their potential. What makes this more exciting is the opportunity to be part of building something amazing from the ground up."

Simone Welch
Food Technology Instructor

"I specialise in Food Technology, and I've always believed the kitchen is one of the best classrooms in the world: it is a place where confidence, creativity, and independence grows. I joined FME because working in an SEN provision means supporting young people in ways that truly matter. Helping our learners discover their strengths through fun, hands-on, meaningful learning is exactly why I'm here."

Onais Shinwari
Teaching Assistant

Onais brings his experience supporting young people with complex learning challenges in the care industry.

Safeguarding and Child Protection

Our school is committed to safeguarding pupils' welfare, health and safety at all times, following Keeping Children Safe in Education (KCSIE). We have a Designated Safeguarding Lead (DSL) and Deputy Designated Safeguarding Lead (DDSL) trained to the highest levels, liaising with the Local Area Designated Officer (LADO) as required. All staff complete safeguarding training annually.

If a pupil, parent, carer, or staff member has any concerns, however small, about a child's welfare or safety, they should share this with us, and we will follow the correct procedures sensitively. Please refer to our Safeguarding and Child Protection Policy, available on our website and from the school office.

Therapeutic and Clinical Support

Alongside our trauma-informed, relational approach to teaching, pupils have access to Speech and Language Therapy and other clinical input, arranged through service level agreements as individual pupils' needs are identified. We are also training an in-house Thrive Practitioner to further strengthen our emotional and social development offer on site. Where a pupil's needs call for additional specialist support, we work with local authorities on appropriate referral pathways. Support is matched to what's set out in a pupil's EHCP, and we work closely with parents, carers and other professionals involved in a pupil's care to ensure this support is joined up.

First Aid, Health and Medical Needs

Our school has a medical room and safe storage of medication. Staff complete Basic First Aid Training, with a three yearly refresher. Individualised Risk Assessments are agreed with parents and carers for pupils with specific health needs. Nominated staff are trained to administer prescribed medication, which is recorded and kept in a locked medical cabinet.

Health and Safety

Health and Safety is coordinated by the Head Teacher, Benjamin Neasom. All staff complete Health and Safety awareness training, and maintenance contractors complete comprehensive site checks, with regular audits.

Risk Management

We use a range of risk assessments to help staff identify and minimise risks to and from pupils, staff and the public, across all curriculum activities and the environment. All Risk Assessments are reviewed, authorised and signed off by the Head Teacher before activities take place, including a full Fire Risk Assessment reviewed annually with fire services.

Anti-Bullying

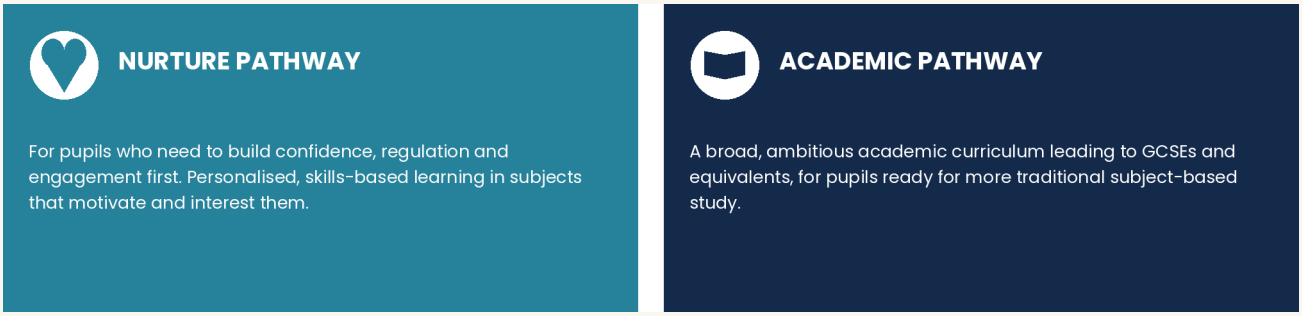

Everyone in our school community is entitled to feel valued, safe and protected from harm, including from bullying, in line with NSPCC best practice guidance. We define bullying as behaviour that is repeated, intentional and harmful, whether physical, verbal, emotional or online, including bullying that uses AI-generated content such as ‘deepfakes’, and recognise that it can also take the form of discrimination against a protected characteristic. Our school is a 'telling school', where pupils, parents, carers and staff are actively encouraged and supported to raise any concerns, and every report is listened to, taken seriously and responded to promptly. Staff are trained to recognise the signs of bullying, and all incidents are recorded,

monitored and reviewed so that we can identify patterns and act early. We work with both those who are bullied and those who bully to understand what has happened and to repair harm, taking account of each pupil's individual needs, and we involve parents and carers throughout. Bullying will not be tolerated, and our curriculum teaches and promotes British Values of tolerance, respect, equality and diversity, helping pupils build the empathy and resilience to keep themselves and others safe.

OUR CURRICULUM

We believe every pupil has a personal best, and our trauma-informed approach is designed to help them achieve it: ambition and emotional safety are not in tension, they depend on each other.

Our curriculum is pupil-centred, ambitious, relevant and engaging: high-quality schemes of work, including White Rose Maths, White Rose Science and Pearson English, are tailored to each pupil's needs, interests and learning profile. We hold high aspirations within a genuinely low-threat, low-barrier environment, recognising that pupils with SEMH and ASC needs can only access an ambitious curriculum once they feel safe, regulated and understood. Core subjects are taught through this high challenge, low barrier approach, with humanities subjects (history, geography and religious studies) taught as separate subjects on a rotating basis, enhanced by our 'Themes of the Week'. Food Technology and Physical Education provide regular hands-on, practical learning opportunities. Personal, Social, Health and Economic (PSHE) education runs as a golden thread throughout all subjects and school activities, supporting pupils' emotional wellbeing and life skills development, and every pupil reads for a protected 30 minutes each day.

Our Curriculum Aims

We aim to:

- Deliver a broad, balanced and ambitious curriculum, based on the National Curriculum, differentiated to individual needs and interests, that prepares our pupils for their next steps in education and adult life
- Build pupils' sense of safety, trust and readiness to learn alongside academic challenge
- Provide a framework for teaching and learning with flexibility and scope for creativity
- Ensure high-quality teaching and learning experiences for all pupils
- Ensure staff are well supported through continuing professional development

Our Curriculum Outcomes

We are committed to ensuring our pupils achieve meaningful outcomes that prepare them for successful adult lives:

Academic Excellence

- Every pupil will make at least expected progress from their individual starting points, with many exceeding expectations
- Pupils will gain recognised qualifications that open doors to their chosen pathways, including Entry Level certificates, Functional Skills, and GCSEs
- Our daily 30-minute protected reading time will ensure all pupils develop strong literacy skills and discover the joy of reading

Independence and Life Skills

- Pupils will master practical skills for daily living through our hands-on Food Technology curriculum and comprehensive PSHE programme
- Pupils will grow in confidence, learning to advocate for themselves and make informed decisions
- Pupils will develop the skills to participate actively in their local community

Successful Futures

- Every pupil will follow a personalised pathway designed to achieve their post-16 aspirations, whether in further education, training or employment
- Our Careers and Work-Related Learning programme will ensure pupils develop the employability skills and self-awareness needed for their next steps
- We will support every pupil to secure an appropriate post-16 destination with comprehensive transition planning

Wellbeing and Character

- Pupils will form positive, respectful relationships that support their emotional development, underpinned by our trauma-informed, relational approach
- Through our PSHE curriculum, pupils will develop resilience, co-regulation and emotional regulation skills, and the confidence to face challenges
- Pupils will understand their place in modern Britain, with a strong sense of their rights, responsibilities and potential

Each pupil's outcomes are carefully tailored to their Education, Health and Care Plan (EHCP) and personal aspirations. We work closely with pupils and families to set ambitious yet achievable goals, reviewing progress regularly to ensure every child reaches their personal best.

Curriculum Review and Development

As our cohort of pupils grows, we will continue to adapt our curriculum to meet their evolving needs and interests. The curriculum is kept under at least annual review by our Head Teacher, Proprietor and Chair of School Governance Board. Please also refer to our Careers and Work-Related Learning Policy, a key feature of our curriculum throughout all Key Stages.

Promoting Healthy Lifestyles and Life Choices

We support pupils to understand the benefits of living a healthy lifestyle and making good life choices, starting from a healthy breakfast on arrival

Our teaching kitchen, used for food preparation and life skills

Accreditation

Pupils follow a highly personalised, broad and balanced curriculum, meeting them where they are and holding the highest aspirations for what they can achieve, regardless of prior attainment or starting point. Our high challenge, low barrier ethos ensures that all pupils can access and succeed in an ambitious curriculum. Accreditation starts in Year 7 with the AQA Unit Award Scheme and Entry Level qualifications; by Year 9, pupils can sit Level 1 Functional Skills. At Key Stage 4, pupils follow a personalised pathway of accreditation options, which may include Functional Skills, Entry Level Certificates, GCSEs and equivalents, alongside life skills and vocational qualifications such as Basic First Aid, Food Hygiene, The King's Trust awards, and Duke of Edinburgh's Award.

Access to Examinations and Results

Pupils who are academically and emotionally ready to complete tests and examinations will do so at the appropriate time. Because only a small number of pupils sit public examinations each year, results are not published on our website, to avoid identifying any individuals concerned. Results are reported to parents and carers by personal letter on the relevant results day, and every parent and carer receives an annual report of their child's progress and attainment.

Relationships, Sex and Religious Education

All pupils receive age and ability appropriate Relationships and Sex Education (RSE), vital in preparing them to recognise and sustain healthy, safe relationships. Our Religious Studies offer, delivered as part of our humanities rotation, helps pupils understand the core values of the main religions, referring to Birmingham's Locally Agreed RE Syllabus, promoting tolerance and respect for diversity.

PERSONAL & SOCIAL DEVELOPMENT

We take a trauma-informed, relational approach to developing the whole child. When a pupil does not yet feel safe, regulated and connected, this affects their readiness to learn, so building trust, co-regulation and emotional wellbeing, informed by Thrive principles, sits alongside academic progress at every stage.

Trauma-Informed Practice

Staff are trained in trauma informed, relational practice, putting pupils' emotional needs first so they can re-engage with learning.

Relationships & Sex Education

Age and ability appropriate RSE, preparing pupils to recognise and sustain healthy, safe relationships.

Careers & Work-Related Learning

A key feature of our curriculum at every Key Stage, preparing pupils for life, training and employment beyond school.

Behaviour, Rewards & Sanctions

Pupils are recognised and rewarded for positive engagement and progress, with personalised targets linked to their EHCP.

Our staff complete comprehensive GCM (Global Conflict Management) Therapeutic De-escalation and Physical Intervention training, an accredited programme grounded in trauma-informed principles and the belief that physical intervention is always a last resort. This supports staff to promote positive behaviours, use therapeutic de-escalation techniques, and keep everyone safe. Pupils are recognised and awarded points for positive engagement, with personalised targets based on their EHCP objectives.

A calm, comfortable space to support emotional regulation

UNIFORM & EQUIPMENT

School Uniform

- White polo shirt or school shirt
- Black trousers
- Plain black sweatshirt, jumper or cardigan (not a hoody)
- Smart, plain black footwear (no heels or flip flops)

P.E. Kit

- Plain black P.E. shorts, jogging bottoms or tracksuit
- Plain white t-shirt
- Plimsolls or training shoes

Equipment

We provide all equipment, including stationery. Bags should contain only a pencil case, home/school diary, P.E. kit and sanitary products as appropriate. Please do not bring money, personal items, jewellery, or food/drink into school (unless by prior agreement), and mobile phones must be agreed with the Head Teacher and handed in on entry.

School Meals

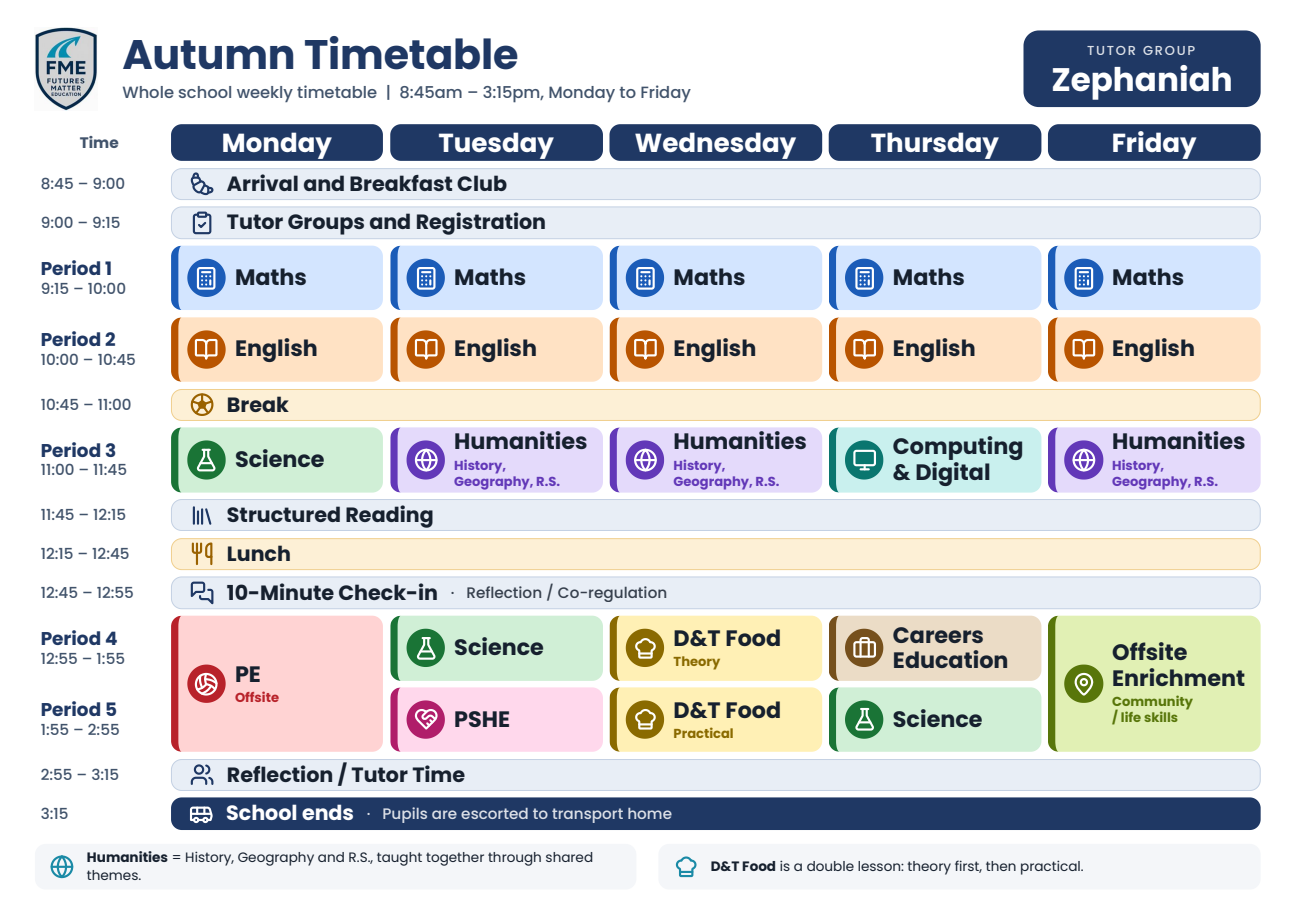

Breakfast is available on arrival at Arrival and Breakfast Club (8.45am). A hot lunch, brought onto site from a local provider, is included at 12.25pm, and dietary and allergy requirements are catered for. Please let the school office know of any dietary needs so we can plan accordingly.

TERM DATES & THE SCHOOL DAY

Pupils attend school for 190 days over 38 weeks, aligned as far as possible with Birmingham City Council term dates. All pupils follow education programmes totalling 32.5 hours per week. Our Autumn timetable is shown below.

Attendance

We know that many of our pupils have experienced difficulties with attendance in previous settings, and we work closely with pupils, parents and carers to understand and address any barriers. Regular attendance gives pupils the best chance to access the therapeutic and academic support on offer, and parents/carers are kept informed of term dates, inset days and holidays well in advance.

SUPPORTING YOUR CHILD'S EHCP

Annual Review Meetings

An early Annual Review meeting is called within the first 12 weeks of admission, giving pupil, parents/carers, staff and local authority the opportunity to discuss integration, assessments, support programmes, and EHCP objectives, and to agree the date of the next full Annual Review.

Transition Review Meetings

Held at key transition points (for example, Years 6, 9 and 11) with the views of the pupil, parents/carers, staff, clinicians and Local Authorities heard and minuted. These meetings focus on whether EHCP objectives have been met and/or need updating, and pupils have a Transition Plan to support a successful move between phases.

A proforma is sent out ahead of these meetings, and we encourage families to take time to consider their responses in advance: a valuable opportunity to shape future plans.

OUR ADMISSIONS PROCESS

We specialise in supporting children aged 11 to 16 with moderate learning difficulties, communication and interaction needs, autism, or social, emotional and mental health needs. Referrals must come to us directly from the pupil's local authority, at any point in the year.

All referrals are considered by our Admissions Panel. Where we believe we might be able to meet a child's needs, we will arrange to meet the child and their parent or carer to learn more, before a place is offered. We must be certain that we can meet a child's needs effectively and that the placement is likely to be successful for everyone concerned. A contract, fees and transport arrangements, if applicable, will be agreed with the local authority, and a start date identified, always the earliest date we can facilitate a smooth admission to our school.

All pupils have a personalised Admission Programme supporting a smooth transition. Please refer to our Admissions Policy, available on our website and from the school office. If you wish to discuss a referral, please contact:

Headteacher	Benjamin Neasom: benjamin.neasom@futuresmattereducation.co.uk

PRACTICAL INFORMATION

If English is not the First Language of Pupils, Parents/Carers

During the referrals process, a child's need for additional support will be identified, and appropriate provision put in place before admission, including one-to-one support from a bi-lingual Teaching Assistant, or an interpreter for meetings where needed.

Complaints Procedure

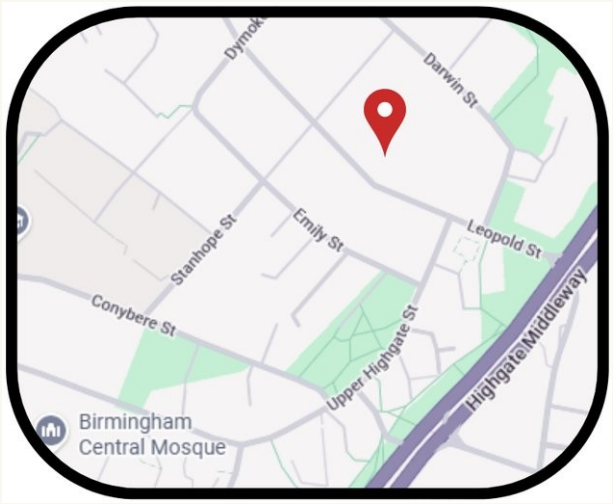

In accordance with the Independent School Standards and the Children's Act 1989, all pupils can discuss concerns and make complaints through our Complaints Procedure. Informal complaints are addressed with a pupil's Tutor or class teacher. Formal complaints should be reported directly to the Head Teacher (or the Proprietor, if the complaint concerns the Head Teacher). Concerns from adults should first be raised informally, directly with the school. Please refer to our Complaints Procedure, available on the school website and from the school office.
